

# PROPOSALS FOR LAND EAST OF HORNDEAN

## RECREATION AND PLAY SPACES

In our initial discussions with the Parish Council it was suggested that there is a long waiting list for allotments in the parish. The proposed development represents an opportunity to address this shortage on site.

The draft proposals include approximately 30 Hectares of open space (both informal and formal). This could include a variety of different play spaces and walking/cycling routes. We would be very interested in hearing your views as to how these areas could be laid out.

- Do you agree that allotments are needed in Horndean and if so how should they be provided on site?
- Would you prefer 'equipped' areas of play or informal 'natural' play spaces?
- What characteristics in your view define an attractive walking/cycling route?
- Are there any other outdoor activities that could be accommodated on the proposed areas of open space?

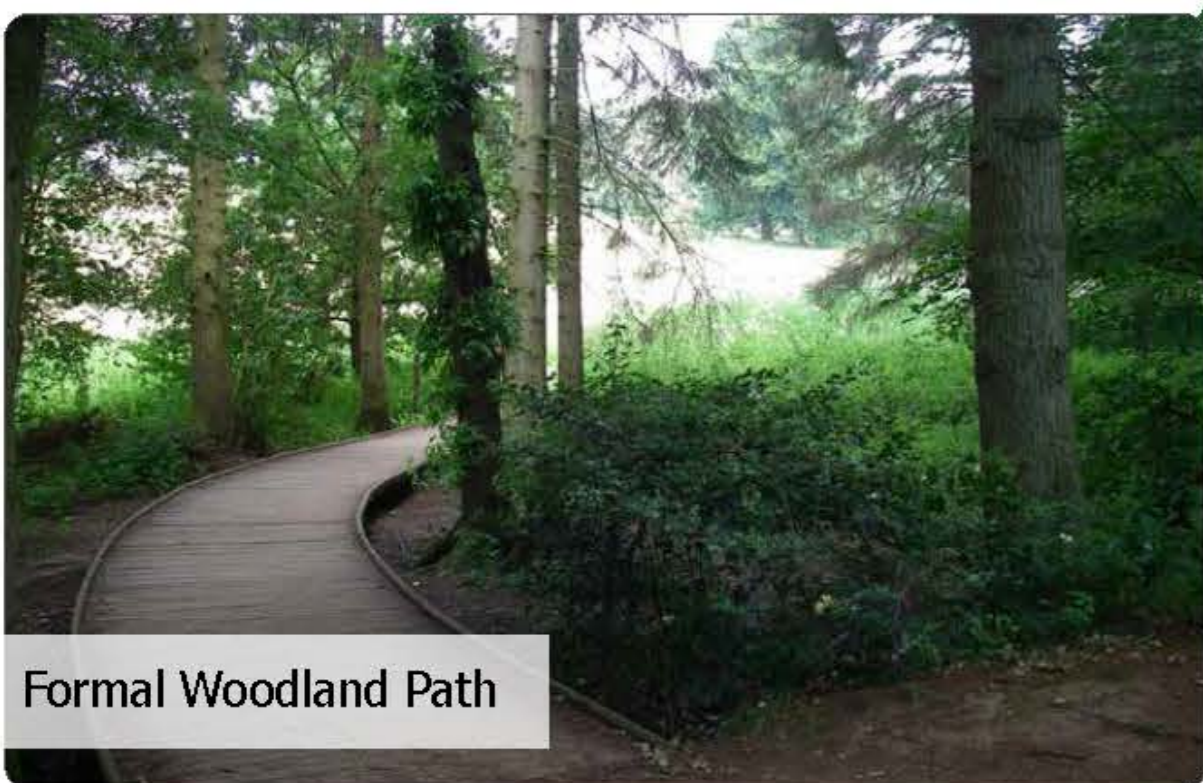

Formal Footpath

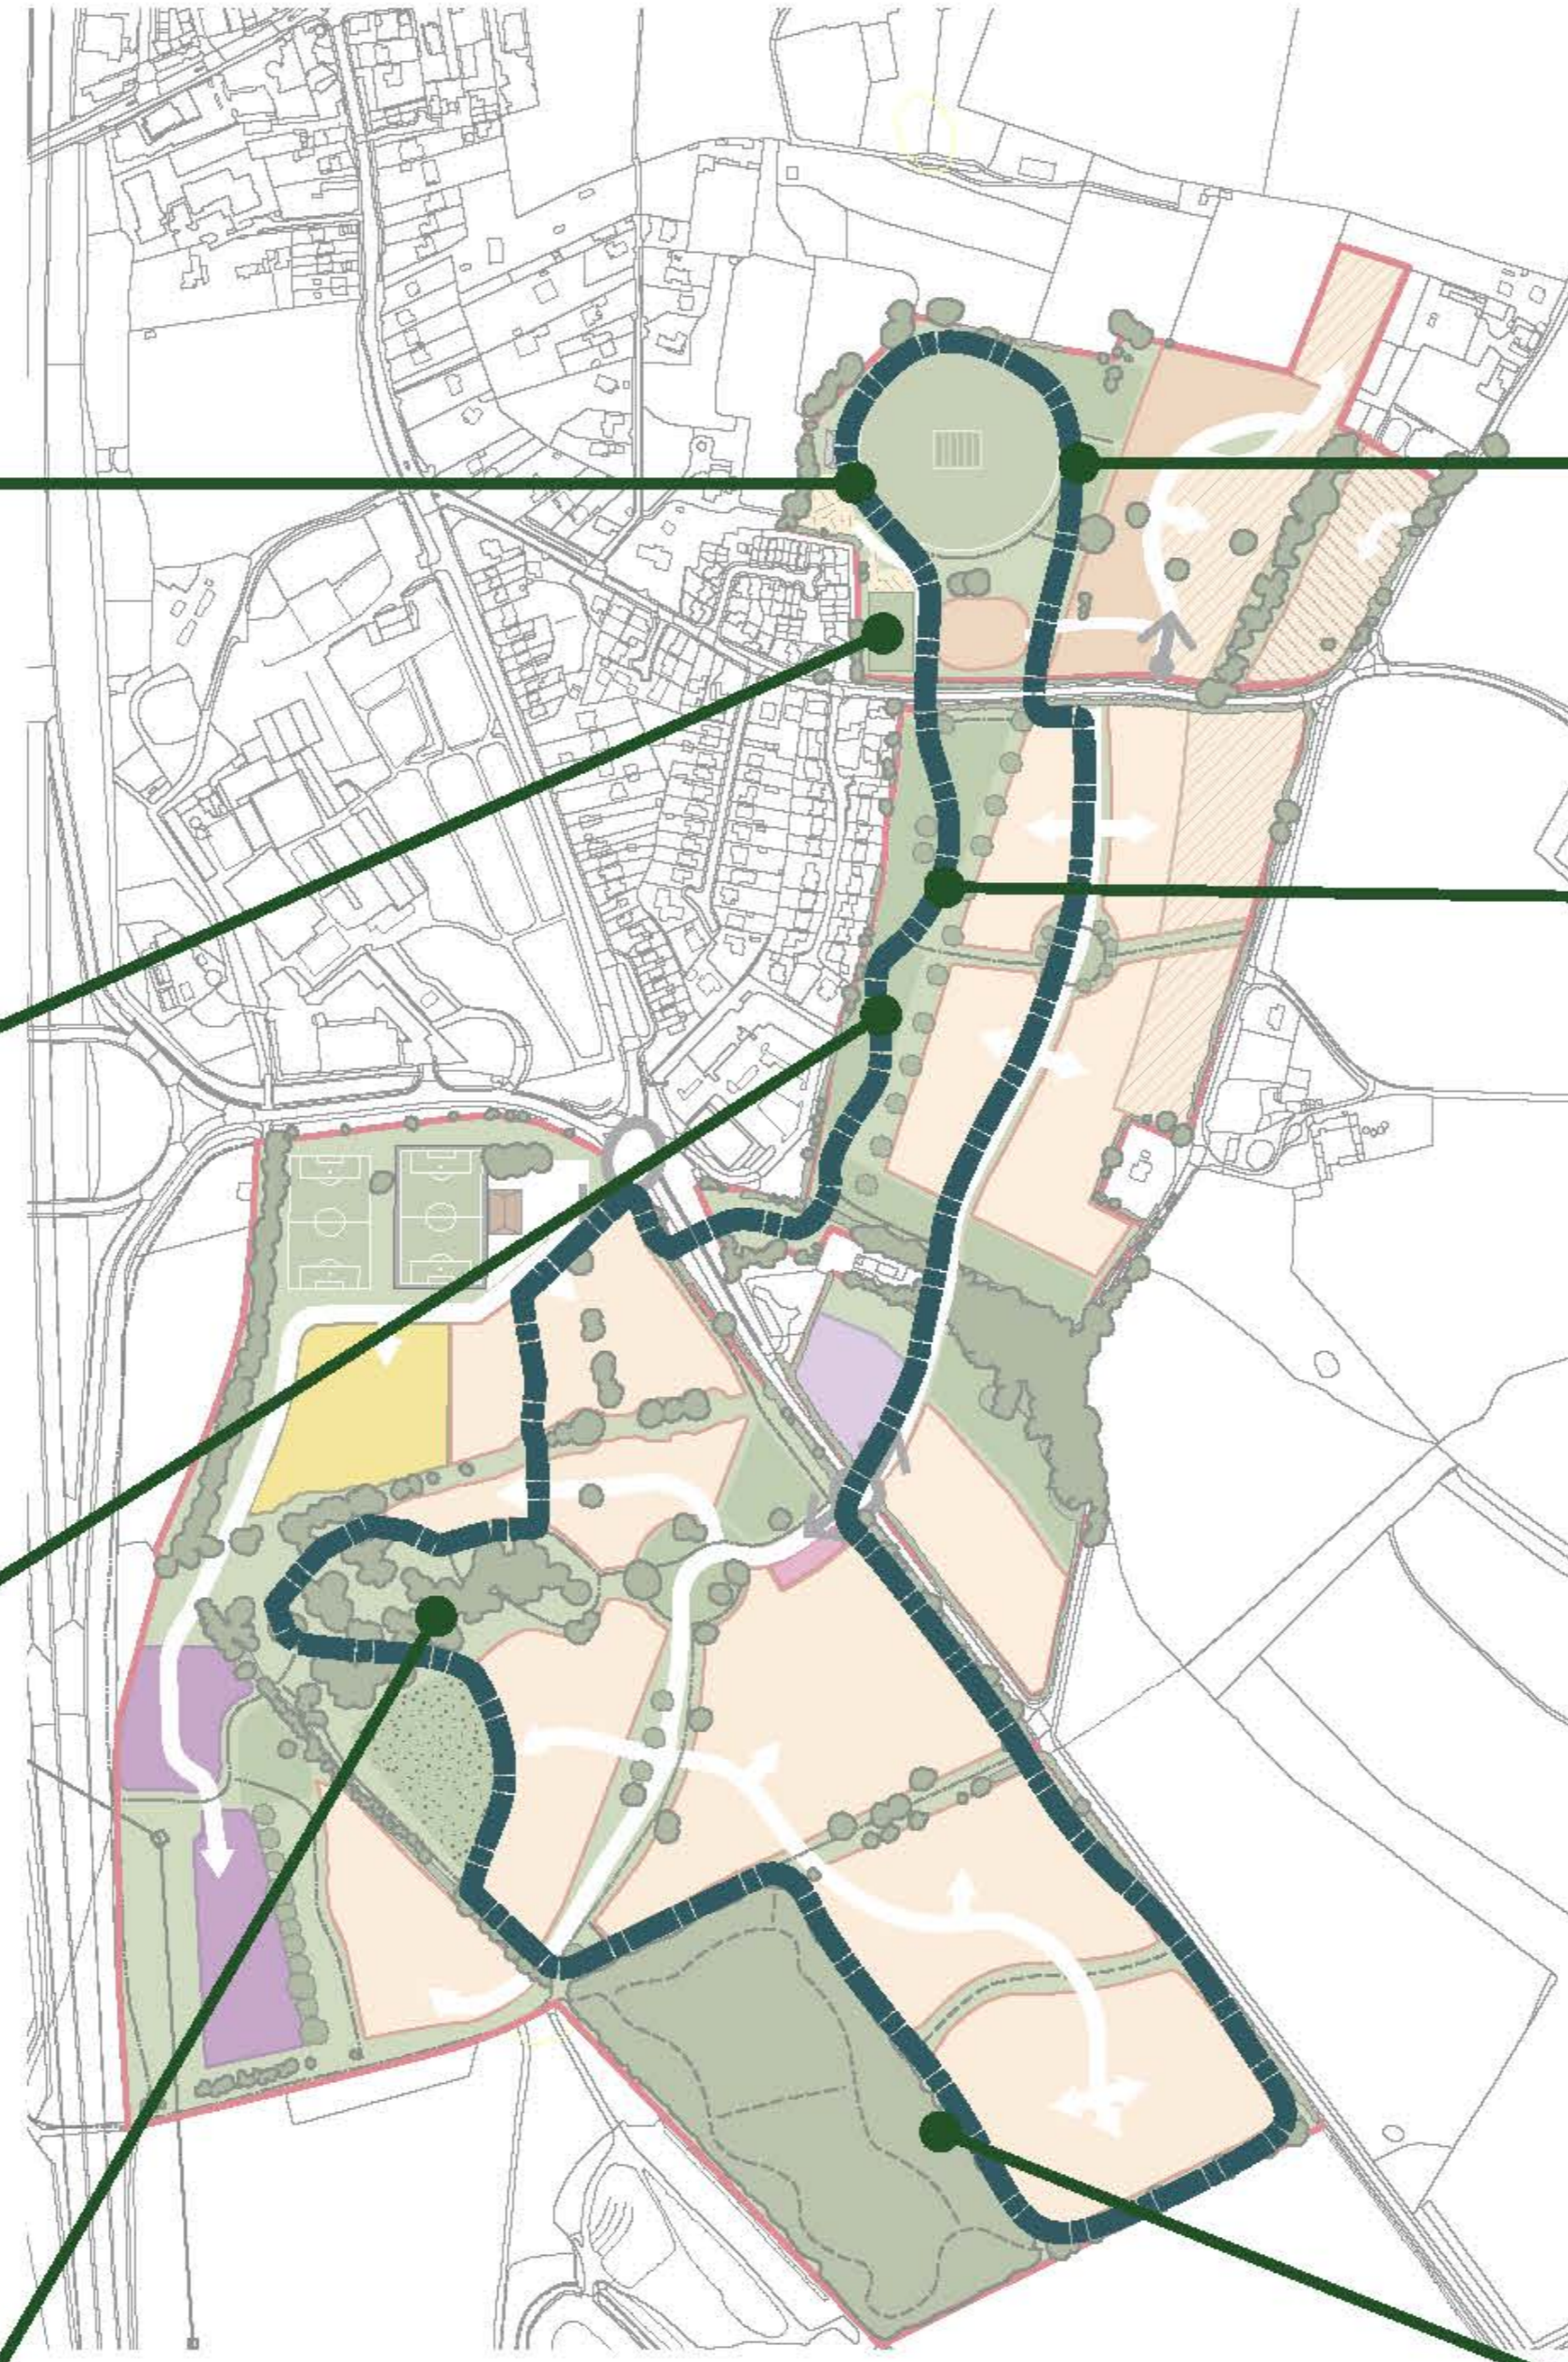

Allotments

Informal Play

Formal Woodland Path

Sustainable Urban Drainage

Formal Cycle Routes

Unmade Cycle Paths

Open Grassland

Equipped Play Area

Natural Play Park

Natural Woodland Play Area

Unmade Woodland Path
