

PROPOSALS FOR LAND EAST OF HORNDEAN

LOCAL FACILITIES AND EMPLOYMENT OPPORTUNITIES

We have set aside a 1.2 Hectare site for a primary school and we are currently in discussions with Hampshire County Council to confirm capacity in local schools.

The draft proposals also include approximately 2 Hectares of employment land (including an Enterprise Centre for business start ups) and a site for a local centre.

- If a local centre (including local shop) is provided on site what type of uses do you think it should accommodate?
- What are your views on the type of businesses the employment flosspace should be looking to cater for?

NEXT STEPS

This exhibition is very much the start of a process of consultation with the local community. Aside from gaining your general views of the site and the initial proposals, we aim to use the feedback from this exhibition to better understand local issues, priorities, aspirations and concerns, and to consider how these can inform the proposals at this early stage.

Please fill in the questionnaire and feedback form provided. Alternatively, comments can be emailed to us or submitted via the website as per the details below.
